AP Statistics - Summer Work '*Suggested*' Pacing Guide

Refer to the PDF of the [Preliminary Chapter](#) from the book *The Practice of Statistics, Third Edition*, to complete the following assignments. You should complete the assignments in your designated AP Statistics notebook. The [Preliminary Chapter Note-taking Guide](#) is available to take notes. The [Case Study](#) and [Five Homework Exercises](#) should be turned in on the first day of school. Below is a suggested pacing guide to complete the assignment.

First week of summer

Read and outline pages 3-10. Complete exercises P.1-P.6 from pages 11 & 12.

Second week of summer

Read and outline pages 12-18. Complete exercises P.7-P.12 from pages 19-21.

Third week of summer

Read and outline pages 21-25. Complete exercises P.13-P.18 from pages 19-21.

Fourth week of summer

Read and outline pages 28-30. Complete exercises P.19-P.28 from pages 30-33.

Fifth week of summer

Complete the **Case Closed!** Assignment on pages 26 & 27. This will be collected and graded as a 25 point formal assignment based on being correct and showing all work. Print out the [Case Study](#) handout to write answers.

Sixth week of summer

Review the P.1-P.6 exercises and choose **one even** problem to turn in as your homework problem from this section.

Seventh week of summer

Review the P.7-P.12 exercises and choose **one even** problem to turn in as your homework problem from this section.

Eighth week of summer

Review the P.13-P.18 exercises and choose **one even** problem to turn in as your homework problem from this section.

Ninth week of summer

Review the P.19-P.28 exercises and choose **two even** problems to turn in as your homework problem from this section.

Tenth week of summer

*~Consolidate all **five** even problems onto the **Five Homework Exercises** handout. This will be turned in and graded as a 25 point informal grade based on being correct and showing all work.~*

Last week of summer!

Access <https://apstudent.collegeboard.org/home> website to explore and find out information regarding the AP Statistics exam.

Have a great summer😊
